| *Paola Vinciguerra - First Cisl*

Light lunch

14.30 - 16.30 Round table: Four years after the birth of the European Green Deal, what results have been achieved and what role for sustainable finance?

Goals

What has been the impact on the industrial relations system and what are the likely future developments in the financial sector?

The following topics will be discussed:

- *will the rapid development of artificial intelligence be an opportunity for the success of the 'green revolution' or will it instead be a threat?*
- *what will be the foreseeable effects on the industrial relations system?*
- *the influence of climate change on occupational health and safety, a labor law perspective;*
- *the role of education, training and the development of new skills for workers will be the focal points to achieve a fair, smart and inclusive green transition that leaves no one behind.*

Panelists

María Luisa Martín Hernández - University of Salamanca
